Mission Description

The Chevy Chase Main Street program serves the businesses, organizations, and individuals who live, work, and play in Chevy Chase DC. The program is managed by District Bridges, a community ecosystem development non-profit organization.

Programs and Services

Chevy Chase Main Street provides direct services and support to businesses located within the main street boundaries. Their programs include technical assistance, one-on-one consultations, free or low- cost training and workshops, retail market analysis services and regularly distributed business newsletter that provides resources and opportunities.

Small Business Grants of up to $5,000 are available for businesses located within the Main Street program boundaries. The funds can be used for technical assistance, exterior and storefront improvements, interior renovations, security improvements, and/or equipment.

They also host several community events and onsite activations that drive foot traffic to the corridor's small businesses.

AccessPointDC.com is their online technical assistance platform that provides educational videos and resources to DC business owners. The platform has free on-demand training covering a wide variety of topics from marketing your business to staying in compliance with DC regulations.
